About Me

Aspiring Java Backend Developer with hands-on experience in developing scalable backend applications using Java, Spring Boot, RESTful APIs Microservices,and MySQL. Completed a backend development internship at Naman Digital Pvt. Ltd., contributing to API development, integration, and database management. Familiar with Microservices Architecture, Spring MVC and Hibernate. Passionate about building clean, secure, and high-performance backend systems while continuously enhancing expertise in modern Java technologies.

TECHNICAL SKILLS

Languages: Java, SQL
Database: MySQL ,Jdbc
Frameworks: Spring Boot, Spring Data JPA, Hibernate, RESTful APIs
Architecture: Microservices Spring Cloud — Eureka, API Gateway, OpenFeign,Services Registry and Loadbalncing
Tools: Postman, Maven, Eclipse ,Git Hub
SOFT SKILLS : Problem-Solving & Time Management ,Quick Learner.

Java Core, Advanced & Data Structures — Smart Programming
Spring Boot — Smart Programming
Hibernate — Infosys Springboard
Microservices — Durgesh Academy

EXPERIENCE

Software Development Intern — **Naman Digital Pvt. Ltd**. **Jun 2025 – Aug 2025**

Developed and tested REST APIs using Java and Spring Boot, implemented backend modules, handled API integration, and performed database operations with MySQL while adhering to professional coding practices.

---

1. Customer Relationship Management system (Minor)

- Developed a full-stack **Customer Relationship Management** system for student data
- **Tech Stack:** Java, Spring Boot, Spring Data JPA,RestFul Services. Basic Archicture of
- monolithic architecture And Basic Spring Security Athuntication authentication and authorization
- Used **Spring MVC** architecture and Thymeleaf templates for responsive web UI using Bootstrap ,Html,Jquery,and js. Features Add/view student records, integrated form validation, responsive web UI
- Implemented **two modules**: Admin CRUD operations on student data and User (view/update profile).

2. Multi-Vendor Course Marketplace Platform (In Progress) Major

Building an industry-level multi-vendor marketplace platform using microservices architecture, where instructors can publish and monetize courses and learners can browse, purchase, and access them through a secure, rolebased system. **Using** Java, Spring Boot, **Spring Cloud** (Eureka, API Gateway, OpenFeign), Spring Data JPA, REST APIs, **React.js**, and **Authentication:** Google OAuth 2.0 Login Integration.

EDUCATION Bachelor of Technology (B.Tech) — Computer Science Engineering Sage University,

Bhopal | 2022 – **Present**.
